

# JA ENTERPRISE Without Borders®

**Go international with your JA Company! ...EwB is a program where you can create a joint-venture with a JA Company in another country**

**Enterprise without Borders®** (EwB) is an *educational program* for students age 15 to 19.

It will give students running the JA Company Program opportunities to create *international partnerships* as part of their JA experience.

They can advertise their products and services online and they can participate in regional and global competitions and awards.

Through the EwB web-platform, a truly global community of teachers, volunteers and students have access to digital materials and online interactive activities.

EwB is about being entrepreneurial in an international context, getting to know each other and each others' markets; and maybe taking good business ideas to the next level.

[www.jaewb.org](http://www.jaewb.org)

Volunteers can share know-how about doing business across borders.

Teachers can link to other teachers and help their students communicate effectively across cultures and languages.

JA Staff can team up to give JA Company students a fantastic experience.

***"This was certainly the best international project I took part in. My team improved their economic and - financial skills and learned useful things about other cultures and languages. Thanks EwB!"***

# JA ENTERPRISE Without Borders®

Run a joint-venture business from capitalization to liquidation with a partner from another country.

- Age group 15-18
- Learning-by-doing
- Students learn international trade, company operations and work with students from other nations
- Students exchanges
- Volunteers from business community

#### IMPACT after 5 years

- 32 countries
- 44,000 students
- 3,400 mini-companies
- 2,800 joint-ventures
- 1,660 business volunteers
- 2,640 teachers

“From our joint-venture student company with Canada, I learnt a lot about Canadian culture, economy and style of doing business. In business, Canadians are very straightforward negotiators and usually make good bargains,” said Elena Lilova, JA student from Bulgaria.

#### ONLINE and e-LEARNING

- Matching schools and student companies
- Collaboration among educators and business volunteers
